#### ***Examiner's Amendment***

3. An examiner's amendment of record appears below. Should changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

each circuit block comprising a shutdown circuit for preventing the system clock signal from functioning as the respective local clock signal after the circuit block receiving the shutdown signal provides a shutdown acknowledgement signal to said power control manager; said power control manager being connected to each shutdown circuit through a respective power down request line for providing the shutdown signal thereto, and through a respective power down acknowledgement line for receiving the shutdown acknowledgement signal therefrom, said power control manager comprising a first register connected to the respective power down request lines for storing data indicating logic states of the shutdown signals, and a second register connected to the respective power down acknowledgement lines for storing data indicating logic states of the shutdown acknowledgement signals; and a central processing unit connected to said power control manager for determining whether each circuit block is in an active state or an idle state by querying said first and second registers”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
